# Welcome Message

Child Care  
Conference

It is our pleasure to invite you to join us at the Child Care Congress 2022 Summer Edition which will be held in September, 2022 in Hurghada, Egypt. The Congress is organized by the Egyptian Society For Upgrading Pediatric Medical Practices (ESUPMP).

In 2021, we have passed through a changing time that affected the way we communicate in our medical congresses and meetings. The Conference will deliver its outstanding scientific program both in live sessions as well as webinars that will be conducted by the IT team of CONGROUP, to ensure the safety of everyone, we will fully abide to the national recommendations of group meetings regarding the number of attendees in gatherings, maintaining physical distance and providing means for hygienic practices during our live presentations.

The scientific program of the congress will include a large number of educational scientific talks presented by top key eminent speakers in their fields, who will share with you their practical knowledge and experiences regarding infant and child health.

The past used to include hand-on workshops that was really a great success. The program is designed in such a way to allow enough time for active interaction between the floor, whether live or virtual, and the speakers. We are looking forward to welcoming you at.
